## WHY A TUTOR?

Have you ever thought about what helps top accomplisners become top accomplisners in school? Have you wondered if their talents are due to their innate gift or do they have structures of help that make a difference? Is it a mixture of both, perhaps? Your child can do it right first time! Our tutors also play a mentorship role.

We provide not only Tutoring, but also mentoring, career advice and development. One of the daunting challenges parents face these days is to find the right tutor for their children. Although it is simple to search for independent or individual tutors, the problem occurs when you have to change them due to unexpected circumstances. You're going to have to start all over again looking for another Tutor. At LEER South Africa, the approach is different – we're providing multiple options for you and your child. A tutor replacement can be made instantaneously without disrupting the academic help that your child receives.
