“Success is not final; failure is not fatal: it is the courage to continue that counts.” — Winston Churchill.

Take Your Business Seriously!

Research estimate that 40% of new business ventures fail in their first year, 60% in their second year, and 90% in their first 10 years of existence. There are numerous reasons for these failures and one of this failure is linked to the lack of and need for marketing skills of SME managers.

Why Choose LEER South Africa

LEER South Africa Business Support Services provides tools and support for SMEs to acquire business surviving skills. Our technical support and training programme are designed to lessen the failure rate of small and medium enterprises in their early years of development. Our services are cost effective, flexible and 4IR ready.

Our Services

LEER South Africa's Business Support Programme offers the following services: Company Registrations; Business Plans; Company Documents; Website; and E-Commerce. See brief description of each service below.

- ✓ For Profit Company
- ✓ Non-Profit Company
- ✓ Annual Returns
- ✓ Tax Compliance
- ✓ CSD Registration

Company Registrations

Registering your business with CIPC strengthens your identity and brings legitimacy to your business. It makes it easier for prospective clients to recognise you as a legitimate business. It attracts market and investment opportunities.

Business Plans

Business Plans are very valuable planning tools for entrepreneurs. A good Business Plan not only allows a company to concentrate on the practical actions required to make the plans work, but also helps it to accomplish its short-term and long-term goals.

- ✓ Executive Summary
- ✓ Opportunities
- ✓ Execution Strategy
- ✓ Company Overview
- ✓ Financial Projections

- ✓ HR Docs
- ✓ Financial Policies
- ✓ ToRs (Boards etc.)
- ✓ Constitution
- ✓ Travel Policies

Company Documents

Having policies and procedures shows integrity as an organization and gives guidance to employees on how the company works. Policies demonstrate that the company is in charge and stable, providing both employees and the general public with assurance.

“There’s no shortage of remarkable ideas, what’s missing is the will to execute them.” — Seth Godin

Website & E-commerce

One of the key reasons why you should provide a website for your company is to improve the reputation of your enterprise. Without a website people might doubt your credibility as a company. Getting a website is a chance to make a fantastic first impression and to give people the comfort that you're a real company.

A website with e-commerce capabilities is the best way to transform the company from a conventional brick and mortar store into an innovative, well-loved brand. By providing superb goods 24 hours a day along with online client support and social network, your business can be your home, allowing you to broaden your product portfolios.

"Price is what you pay. Value is what you get." - Warren Buffett
